

CYBERSECURITY THINK TANK

# GenAI Security

---

December 9 - 11, 2026 | The Westin Trillium House, Blue Mountain

# About The Cybersecurity Think Tank

## WHERE VISION MEETS PURPOSE

At the core of our mission is the cultivation of transformative dialogue and collaboration. We curate exclusive, invitation-only environments that unite distinguished leaders and visionaries across industries. These forums serve as sanctuaries for thought leaders to exchange insights, challenge assumptions, and foster growth in an atmosphere of trust and openness.

While our experts often speak at premier global conferences, they turn to our forums for something unmatched — candid debate, innovative ideation, and the opportunity to shape the future through collective intelligence. We create spaces where excellence meets opportunity, inspiring meaningful conversations and equipping leaders with the knowledge and connections to drive real change.

The three-day, invitation-only summit brings together the nation's top security leaders to move beyond discussion and focus on actionable solutions. This intensive program provides a structured space for collaboration, delivering deployable strategies tailored to Canada's evolving regulatory and threat landscape.

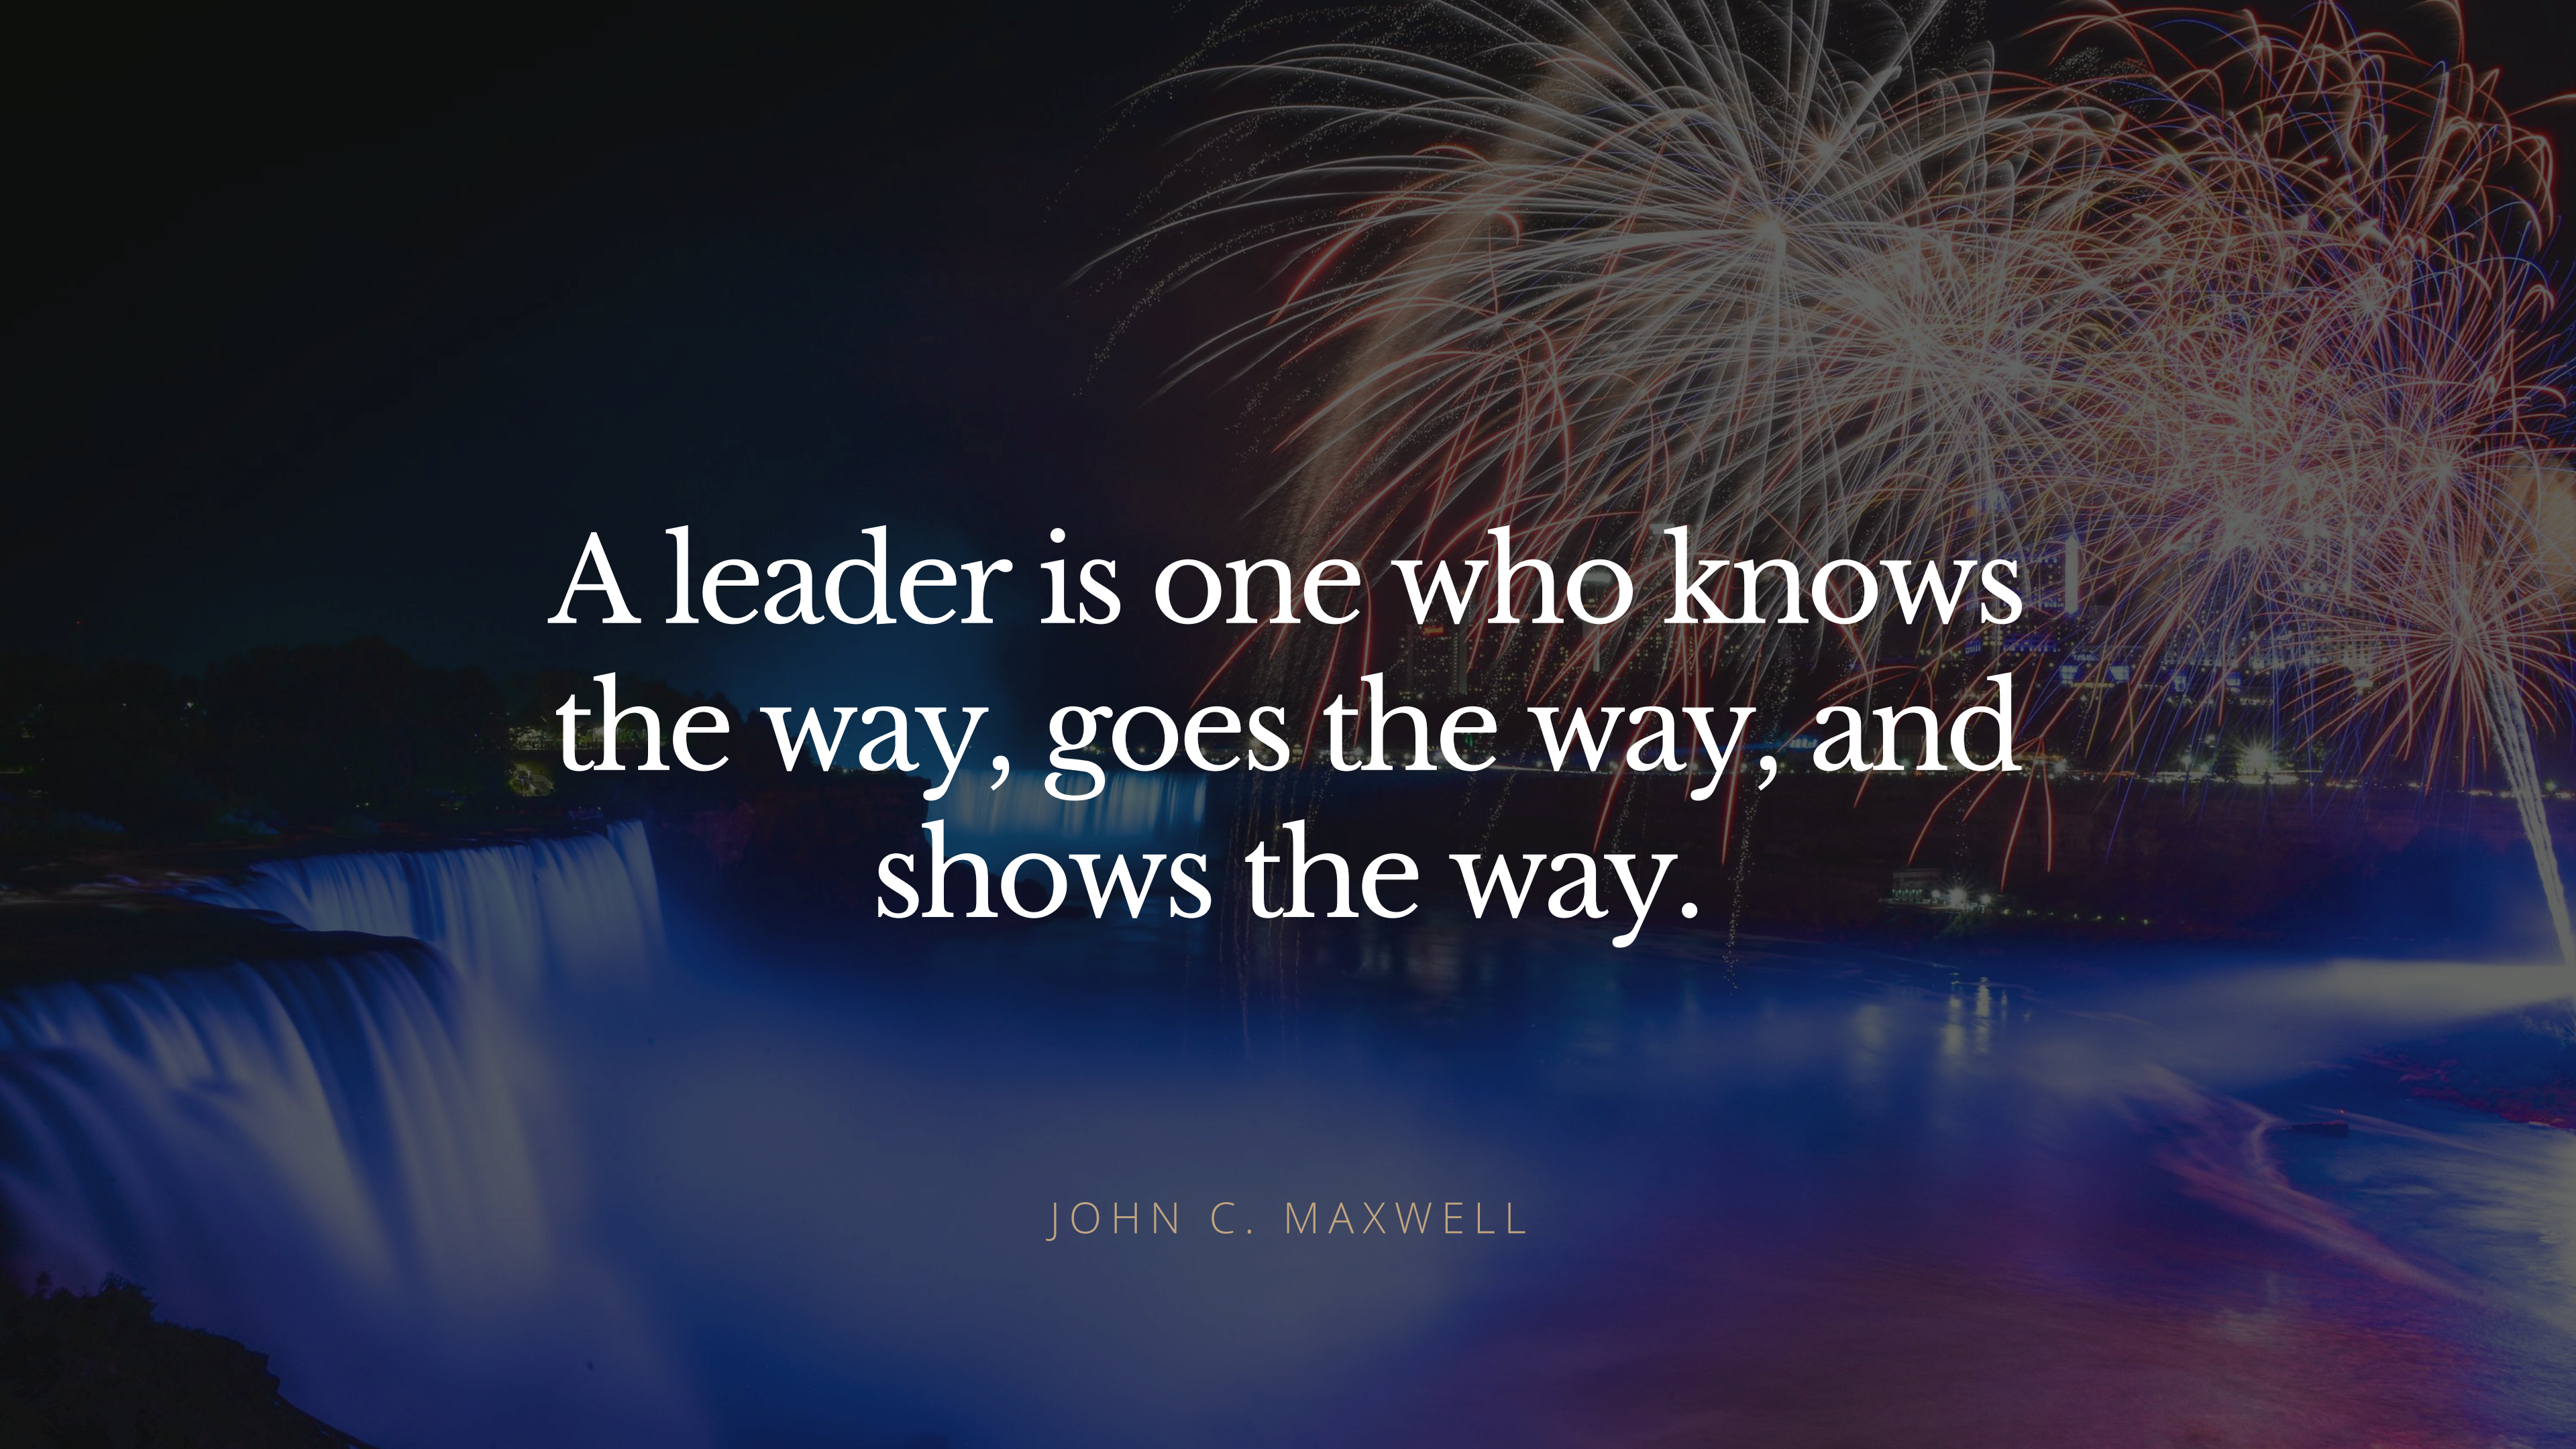

Designed for visionary CISOs, Security Managers, and Directors, the summit empowers participants to master the modern threat environment and achieve measurable gains in resilience and compliance. Guided by a focused 3-Phase Sprint Methodology, this Think Tank transforms insight into impact and strategy into execution.

# The Experience

GENAI SECURITY

---

December 9 - 11, 2026 | The Westin Trillium House, Blue Mountain

December 9, 2026 Day 1

**PHASE 1:**

*Vision & Assessment focuses on establishing a shared understanding by mapping the most critical Canadian cyber risks and clarifying immediate regulatory compliance gaps.*

December 10, 2026 Day 2

**PHASE 2:**

*Solution Sprint is dedicated to rapidly prototyping and refining practical strategies; here, participants draft modules for sector-specific Incident Response Playbooks and conduct peer reviews of blueprints for secure Tested Environments and automated Sandboxes used for continuous security validation.*

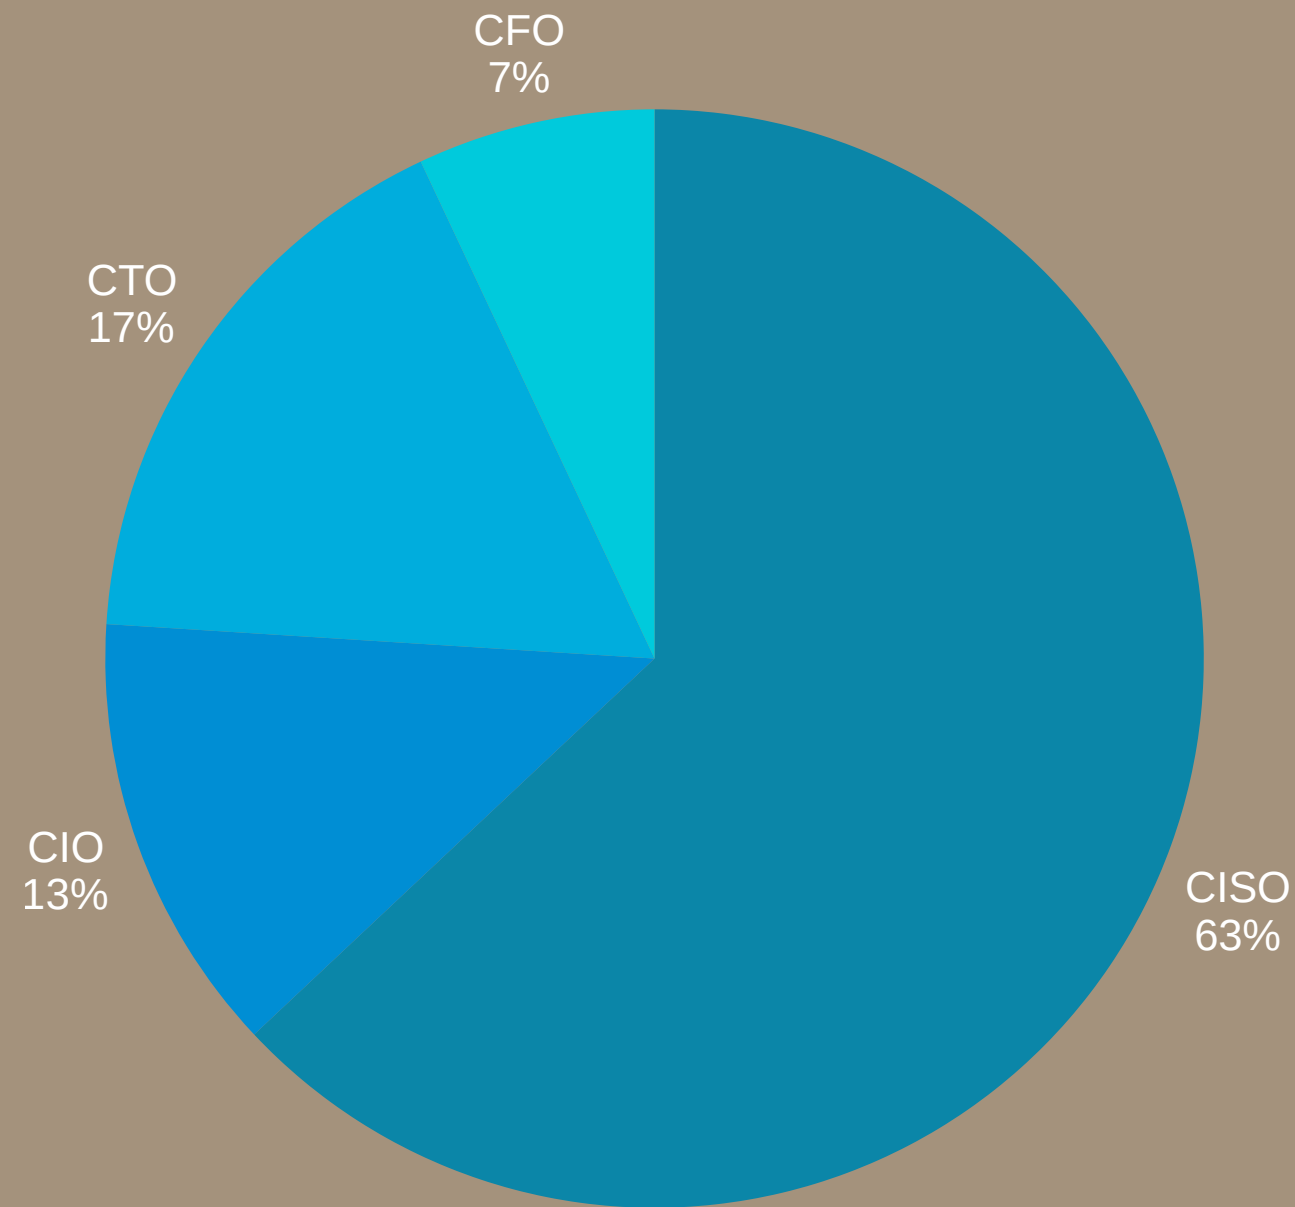

December 11, 2026 Day 3

**PHASE 3:**

*Action & Alignment consolidates these findings into an Executive-Ready Summary and secures commitment to the 3 Key Actionable Commitments identified for immediate organizational and industry-wide implementation.*

*By the end of the summit, every participant will leave with tangible assets ready for deployment: a foundational Incident Response Playbook Framework, Reference Blueprints for building effective security validation environments, and a trusted, high-value peer network. The focus is on translating insights on Canadian-specific threat intelligence and regulatory alignment into practical, tested defensive capabilities that immediately enhance organizational security posture.*

## ATTENDANCE (30 PEOPLE ONLY)

# \$20,000

## SPONSORSHIP (CAD)

- Industry Workshop hosted by your organization, seamlessly integrated into the event's learning agenda.
- Two full-access tickets to the event for your organization's representatives.
- Sponsor Branding featured prominently across all digital platforms, event signage, and marketing materials.
- Post-Event Recognition through recap content, social media, and ongoing brand exposure within our community.
- CASL-Compliant Attendee List delivered within 48 hours of the event for approved follow-up communications.
